Re: Search Update

The Hilbert College President Search Committee has completed its series of campus meetings on the role of the president and desired skills. Thank you to the student leaders, staff members, faculty, and trustees who participated in this process. All of the suggestions and comments will contribute to our effort in a meaningful way.

As part of her visit, Dr. Kate Haley of Haley Associates, who is serving as our consultant, met with the committee to discuss the recruitment process and the preparation of the search materials. We expect to have the Search Profile completed in mid-November at which time the advertising/recruitment campaign will commence.

Several members of the Hilbert family inquired about writing to the Search Committee on their individual perspectives on the presidency and the challenges facing the college. These messages are helpful, and we welcome written comments.

Please send comments, questions, suggestions, or written perspectives to:
